Description :

PDF-441e8 | This short, concrete, and to-the-point book guides students through this vast field of conflicting opinions. The book begins from the premise that students benefit most from seeing a balanced treatment of all available views. For instance, this book provides coverage of both ad hoc and optimizing models. It also explores divisions such as flexible price versus sticky price models, rationality vers... *International Macroeconomics and Finance: Theory and Econometric Methods*
