Description :

PDF-a08cb | This book presents studies of stock market crashes big and small that occur from bubbles bursting or other reasons. By a bubble we mean that prices are rising just because they are rising and that prices exceed fundamental values. A bubble can be a large rise in prices followed by a steep fall. The focus is on determining if a bubble actually exists, on models to predict stock market declines in b... *Stock Market Crashes: Predictable and Unpredictable and What to do About Them (World Scientific Series in Finance)*
